The 2024 EDUCAUSE Top 10 describes the contributions that technology, data, and the workforce will make to advance three dimensions of institutional resilience: mission resilience, operational resilience, and financial resilience.

**Mission Resilience**

1. **Cybersecurity as a Core Competency**
   Balancing cost and risk

2. **The Enrollment Crisis**
   Harnessing data to empower decision-makers

3. **Administrative Cost Reduction**
   Streamlining processes, data, and technologies

4. **Hiring Resilience**
   Recruiting and retaining IT talent under adverse circumstances

5. **Balancing Budgets**
   Taking control of IT cost and vendor management

**Operational Resilience**

6. **Driving to Better Decisions**
   Improving data quality and governance

7. **Diving Deep into Data**
   Leveraging analytics for actionable insights to improve learning and student success

8. **Meeting Students Where They Are**
   Providing universal access to institutional services

9. **Financial Resilience**
   Using technology and data to help make tough choices

10. **Adapting to the Future**
    Cultivating institutional agility
