How can students, faculty, and institutions better use technology in teaching and learning?

Many students say their wireless network experience on campus merits good or excellent ratings:

- High-speed, no-interruptions network performance: 50%
- Reliable Wi-Fi access that is ubiquitous throughout campus: 58%
- Easy to log into wireless networks on campus: 59%
- Reliable access to Wi-Fi in classrooms: 63%

Many students say their wireless network experience on campus merits good or excellent ratings:

- High-speed, no-interruptions network performance: 50%
- Reliable Wi-Fi access that is ubiquitous throughout campus: 58%
- Easy to log into wireless networks on campus: 59%
- Reliable access to Wi-Fi in classrooms: 63%

Does your institution embrace new models for education?

The digital learning environment is here

- 49% of undergraduates have taken an online course in the past year
- 50% of undergraduates have taken an online course in the past year and 8 in 10

Many faculty are generally supportive of new practices in higher education

- Open educational resources: 65%
- Mobile learning: 63%
- Badges or digital competencies: 39%
- MOOCs: 37%
- Percentage of faculty who are generally supportive of this practice in higher education: 37%

Digital learning environments are mobile, and faculty and students alike are armed with the devices to learn anytime, anywhere

- 9% of students have a smartphone
- 11% of students have a competency-based badge
- 19% of students say they’d include a competency-based digital badge on a resume

About 10% of students plan to purchase a tablet and 10% plan to purchase a wearable device in the next year

Is your campus leadership ready to invest in analytics?

- Percentage of faculty encouraging or requiring devices: 91%
- Percentage of students encouraging or requiring devices: 91%

High-speed, no-interruption network performance. Reliable Wi-Fi access that is ubiquitous throughout campus. Easy to log into wireless networks on campus. Reliable access to Wi-Fi in classrooms.

Many students say their wireless network experience on campus merits good or excellent ratings:

- High-speed, no-interruptions network performance: 50%
